

Specialty-Specific Program Requirements: Program Coordinator Dedicated Time

Effective as of July 1, 2025

Common Program Requirements are in bold

In addition to the specialty- and subspecialty-specific program requirements listed below, the following Common Program Requirements Background and Intent applies:

Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.

Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as otherwise titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison and facilitator between the learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.

The program coordinator is a key member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management appropriate to the complexity of the program. Program coordinators are expected to develop in-depth knowledge of the ACGME and Program Requirements, including policies and procedures. Program coordinators assist the program director in meeting accreditation requirements, educational programming, and support of residents.

Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer residents may not require a full-time coordinator; one coordinator may support more than one program.

The minimum required dedicated time and support specified in 2.12.a. is inclusive of activities directly related to administration of the accredited program. It is understood that coordinators often have additional responsibilities, beyond those directly related to program administration, including, but not limited to, departmental administrative responsibilities, medical school clerkships, planning lectures that are not solely intended for the accredited program, and mandatory reporting for entities other than the ACGME. Assignment of these other responsibilities will necessitate consideration of allocation of additional support so as not to preclude the coordinator from devoting the time specified above solely to administrative activities that support the accredited program.

Subspecialty-Specific Background and Intent: As an example, a program with an approved complement of 12 fellows is required to have at least 74 percent/FTE administrative support: 30 percent/FTE for the program coordinator; and an additional 44 percent/FTE aggregate support. This additional support may be for the program coordinator only or divided among the program coordinator and one or more other administrative personnel. The Review Committee has not specified how the FTE should be distributed to allow programs, in partnership with their Sponsoring Institution, to allocate the FTE as they see fit.

2.12.c. For coordinators with responsibility for both an independent and integrated Plastic Surgery program the requirement for support is additive. (Core)

2.12.d. Programs with a total of 21 or more residents must have at least a 1.0 FTE coordinator, with the remaining required support provided by one or more additional persons. (Core)

Specialty Specific Background and Intent: The Review Committee recognizes that many program coordinators support both an Integrated and an Independent Plastic Surgery program. Administrative support for coordinators who support both formats is additive. For example, a program with 3 residents in the Independent program and 7 residents in the Integrated program would require a total of 120% FTE for program coordinator support (50% FTE for the Independent program + 70% FTE for the Integrated program) across both programs.

Support of large and/or multiple programs requires a facile working knowledge of each specialty's requirements, as well as the ability to manage the day-to-day requirements of large/multiple programs and their required data. The Committee believes that program coordinators who support general surgery programs and are assigned to support other specialties should only support surgical specialties, as these specialties have more similarities in their execution than non-surgical specialties.</p>	Number of Approved Resident Positions	Minimum FTE	1-6	.50	7-10	.70	11-15	.80	16-25	1.0	26-35	1.2	36-45	1.4	46-55	1.6	56-65	1.8	66-75	2.0	76-85	2.2	86-95	2.4	≥96	2.5
