Int.A.	**Definition of Graduate Medical Education** *Fellowship is advanced graduate medical education beyond a core residency program for physicians who desire to enter more specialized practice. Fellowship-trained physicians serve the public by providing subspecialty care, which may also include core medical care, acting as a community resource for expertise in their field, creating and integrating new knowledge into practice, and educating future generations of physicians. Graduate medical education values the strength that a diverse group of physicians brings to medical care, and the importance of inclusive and psychologically safe learning environments.* *Fellows who have completed residency are able to practice autonomously in their core specialty. The prior medical experience and expertise of fellows distinguish them from physicians entering residency. The fellow's care of patients within the subspecialty is undertaken with appropriate faculty supervision and conditional independence. Faculty members serve as role models of excellence, compassion, cultural sensitivity, professionalism, and scholarship. The fellow develops deep medical knowledge, patient care skills, and expertise applicable to their focused area of practice. Fellowship is an intensive program of subspecialty clinical and didactic education that focuses on the multidisciplinary care of patients. Fellowship education is often physically, emotionally, and intellectually demanding, and occurs in a variety of clinical learning environments committed to graduate medical education and the well-being of patients, residents, fellows, faculty members, students, and all members of the health care team.*	[None]	**Definition of Graduate Medical Education** *Fellowship is advanced graduate medical education beyond a core residency program for physicians who desire to enter more specialized practice. Int.A. - (Continued)	*In addition to clinical education, many fellowship programs advance fellows' skills as physician-scientists. While the ability to create new knowledge within medicine is not exclusive to fellowship-educated physicians, the fellowship experience expands a physician's abilities to pursue hypothesis-driven scientific inquiry that results in contributions to the medical literature and patient care. Beyond the clinical subspecialty expertise achieved, fellows develop mentored relationships built on an infrastructure that promotes collaborative research.*	[None] - (Continued)	*In addition to clinical education, many fellowship programs advance fellows' skills as physician-scientists. Int.B.	**Definition of Subspecialty** Pulmonary medicine focuses on the etiology, diagnosis, prevention, and treatment of diseases affecting the respiratory system. Critical care medicine is concerned with the diagnosis, management, and prevention of complications in patients who are severely ill and who usually require intensive monitoring and/or organ system support. Pulmonary disease and critical care medicine fellowships provide advanced education to allow fellows to acquire competence in these subspecialties with sufficient expertise to act as an independent consultant. II.B.	**Faculty** *Faculty members are a foundational element of graduate medical education – faculty members teach fellows how to care for patients. Faculty members provide an important bridge allowing fellows to grow and become practice ready, ensuring that patients receive the highest quality of care. They are role models for future generations of physicians by demonstrating compassion, commitment to excellence in teaching and patient care, professionalism, and a dedication to lifelong learning. Faculty members experience the pride and joy of fostering the growth and development of future colleagues. The care they provide is enhanced by the opportunity to teach and model exemplary behavior. By employing a scholarly approach to patient care, faculty members, through the graduate medical education system, improve the health of the individual and the population.* *Faculty members ensure that patients receive the level of care expected from a specialist in the field. They recognize and respond to the needs of the patients, fellows, community, and institution. Faculty members provide appropriate levels of supervision to promote patient safety. Faculty members create an effective learning environment by acting in a professional manner and attending to the well-being of the fellows and themselves.*	[None]	*Faculty* *Faculty members are a foundational element of graduate medical education – faculty members teach fellows how to care for patients. IV.B.	ACGME Competencies	[None]	ACGME Competencies *The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.*
IV.B.1.	The program must integrate the following ACGME Competencies into the curriculum:	[None]	The program must integrate all ACGME Competencies into the curriculum.
IV.B.1.a)	**Professionalism** **Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles. (Core)**	4.3.	**ACGME Competencies – Professionalism** **Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles. (Core)**
IV.B.1.b)	**Patient Care and Procedural Skills**	[None]	
IV.B.1.b).(1)	**Fellows must be able to provide patient care that is patient- and family-centered, compassionate, equitable, appropriate, and effective for the treatment of health problems and the promotion of health. (Core)**	4.4.	**ACGME Competencies – Patient Care** **Fellows must be able to provide patient care that is patient- and family-centered, compassionate, equitable, appropriate, and effective for the treatment of health problems and the promotion of health. (Core)**
IV.B.1.b).(1).(a)	Fellows must demonstrate competence in the evaluation, and management of inpatients and outpatients with:	4.4.a.	Fellows must demonstrate competence in the evaluation, and management of inpatients and outpatients with:
IV.B.1.b).(1).(a).(i)	acute lung injury, including radiation, inhalation, and trauma; (Core)	4.4.a.1.	acute lung injury, including radiation, inhalation, and trauma; (Core)
IV.B.1.b).(1).(a).(ii)	acute metabolic disturbances, including overdosages and intoxication syndromes; (Core)	4.4.a.2.	acute metabolic disturbances, including overdosages and intoxication syndromes; (Core)
IV.B.1.b).(1).(a).(iii)	anaphylaxis and acute allergic reactions in the critical care unit; (Core)	4.4.a.3.	anaphylaxis and acute allergic reactions in the critical care unit; (Core)
IV.B.1.b).(1).(a).(iv)	cardiovascular diseases in the critical care unit; (Core)	4.4.a.4.	cardiovascular diseases in the critical care unit; (Core)
IV.B.1.b).(1).(a).(v)	circulatory failure; (Core)	4.4.a.5.	circulatory failure; (Core)
IV.B.1.b).(1).(a).(vi)	detection and prevention of iatrogenic and nosocomial problems in critical care medicine; (Core)	4.4.a.6.	detection and prevention of iatrogenic and nosocomial problems in critical care medicine; (Core)
IV.B.1.b).(1).(a).(vii)	diffuse interstitial lung disease; (Core)	4.4.a.7.	diffuse interstitial lung disease; (Core)
IV.B.1.b).(1).(a).(viii)	disorders of the pleura and the mediastinum; (Core)	4.4.a.8.	disorders of the pleura and the mediastinum; (Core)
IV.B.1.b).(1).(a).(ix)	end-of-life issues and palliative care; (Core)	4.4.a.9.	end-of-life issues and palliative care; (Core)
IV.B.1.b).(1).(a).(x)	hypertensive emergencies; (Core)	4.4.a.10.	hypertensive emergencies; (Core)
IV.B.1.b).(1).(a).(xi)	iatrogenic respiratory diseases, including drug-induced disease; (Core)	4.4.a.11.	iatrogenic respiratory diseases, including drug-induced disease; (Core)
IV.B.1.b).(1).(a).(xii)	immunosuppressed conditions in the critical care unit; (Core)	4.4.a.12.	immunosuppressed conditions in the critical care unit; (Core)
IV.B.1.b).(1).(a).(xiii)	metabolic, nutritional, and endocrine effects of critical illness, and hematologic and coagulation disorders associated with critical illness; (Core)	4.4.a.13.	metabolic, nutritional, and endocrine effects of critical illness, and hematologic and coagulation disorders associated with critical illness; (Core)
IV.B.1.b).(1).(a).(xiv)	multi-organ system failure; (Core)	4.4.a.14.	multi-organ system failure; (Core)
IV.B.1.b).(1).(a).(xv)	obstructive lung diseases, including asthma, bronchitis, emphysema, and bronchiectasis; (Core)	4.4.a.15.	obstructive lung diseases, including asthma, bronchitis, emphysema, and bronchiectasis; (Core)
IV.B.1.b).(1).(a).(xvi)	occupational and environmental lung diseases; (Core)	4.4.a.16.	occupational and environmental lung diseases; (Core)

IV.B.1.b).(1).(a).(xvii)	peri-operative critically-ill patients, including hemodynamic and ventilatory support; (Core)	4.4.a.17.	peri-operative critically-ill patients, including hemodynamic and ventilatory support; (Core)
IV.B.1.b).(1).(a).(xviii)	psychosocial and emotional effects of critical illness on patients and patients' families; (Core)	4.4.a.18.	psychosocial and emotional effects of critical illness on patients and patients' families; (Core)
IV.B.1.b).(1).(a).(xix)	pulmonary embolism and pulmonary embolic disease; (Core)	4.4.a.19.	pulmonary embolism and pulmonary embolic disease; (Core)
IV.B.1.b).(1).(a).(xx)	pulmonary infections, including tuberculous, fungal, and infections in the immunocompromised host (e.g., HIV-related infections); (Core)	4.4.a.20.	pulmonary infections, including tuberculous, fungal, and infections in the immunocompromised host (e.g., HIV-related infections); (Core)
IV.B.1.b).(1).(a).(xxi)	pulmonary malignancy, both primary and metastatic; (Core)	4.4.a.21.	pulmonary malignancy, both primary and metastatic; (Core)
IV.B.1.b).(1).(a).(xxii)	pulmonary manifestations of systemic diseases, including collagen vascular disease and diseases that are primary in other organs; (Core)	4.4.a.22.	pulmonary manifestations of systemic diseases, including collagen vascular disease and diseases that are primary in other organs; (Core)
IV.B.1.b).(1).(a).(xxiii)	pulmonary vascular disease, including pulmonary hypertension and the vasculitis and pulmonary hemorrhage syndromes;(Core)	4.4.a.23.	pulmonary vascular disease, including pulmonary hypertension and the vasculitis and pulmonary hemorrhage syndromes;(Core)
IV.B.1.b).(1).(a).(xxiv)	renal disorders in the critical care unit, including electrolyte and acid-base disturbance and acute renal failure; (Core)	4.4.a.24.	renal disorders in the critical care unit, including electrolyte and acid-base disturbance and acute renal failure; (Core)
IV.B.1.b).(1).(a).(xxv)	respiratory failure, including the acute respiratory distress syndrome, acute and chronic respiratory failure in obstructive lung diseases, and neuromuscular respiratory drive disorders; (Core)	4.4.a.25.	respiratory failure, including the acute respiratory distress syndrome, acute and chronic respiratory failure in obstructive lung diseases, and neuromuscular respiratory drive disorders; (Core)
IV.B.1.b).(1).(a).(xxvi)	sepsis and septic shock; (Core)	4.4.a.26.	sepsis and septic shock; (Core)
IV.B.1.b).(1).(a).(xxvii)	sever organ dysfunction resulting in critical illness, to include disorders of the endocrine, gastrointestinal, hematologic, immune, musculoskeletal, and neurologic, systems, as well as infections and malignancies; (Core)	4.4.a.27.	sever organ dysfunction resulting in critical illness, to include disorders of the endocrine, gastrointestinal, hematologic, immune, musculoskeletal, and neurologic, systems, as well as infections and malignancies; (Core)
IV.B.1.b).(1).(a).(xxviii)	shock syndromes; and, (Core)	4.4.a.28.	shock syndromes; and, (Core)
IV.B.1.b).(1).(a).(xxix)	sleep-disordered breathing. (Core)	4.4.a.29.	sleep-disordered breathing. (Core)
IV.B.1.b).(2)	**Fellows must be able to perform all medical, diagnostic, and surgical procedures considered essential for the area of practice. (Core)**	4.5.	**ACGME Competencies – Procedural Skills** **Fellows must be able to perform all medical, diagnostic, and surgical procedures considered essential for the area of practice. (Core)**
IV.B.1.b).(2).(a)	Fellows must demonstrate competence in the ability to:	[None]	
IV.B.1.b).(2).(a).(i)	perform diagnostic and therapeutic procedures relevant to their specific career paths; and, (Core)	4.5.a.	Fellows must demonstrate competence in the ability to perform diagnostic and therapeutic procedures relevant to their specific career paths. (Core)
IV.B.1.b).(2).(a).(ii)	treat their patients' conditions with practices that are patient-centered, safe, scientifically based, effective, timely, and cost-effective. (Core)	4.5.b.	Fellows must demonstrate competence in the ability to treat their patients' conditions with practices that are patient-centered, safe, scientifically based, effective, timely, and cost-effective. (Core)
IV.B.1.b).(2).(b)	Fellows must demonstrate competence in interpreting data derived from various bedside devices commonly employed to monitor patients, and data from laboratory studies related to sputum, bronchopulmonary secretions, and pleural fluid. (Core)	4.5.c.	Fellows must demonstrate competence in interpreting data derived from various bedside devices commonly employed to monitor patients, and data from laboratory studies related to sputum, bronchopulmonary secretions, and pleural fluid. (Core)
IV.B.1.b).(2).(c)	Fellows must demonstrate competence in procedural and technical skills, including: (Core)	[None]	
IV.B.1.b).(2).(c).(i)	airway management; (Core)	4.5.d.	Fellows must demonstrate competence in procedural and technical skills, including airway management. (Core)
IV.B.1.b).(2).(c).(ii)	use of a variety of positive pressure ventilatory modes, including: (Core)	4.5.e.	Fellows must demonstrate competence in procedural and technical skills, including use of a variety of positive pressure ventilatory modes, including: (Core)
IV.B.1.b).(2).(c).(ii).(a)	initiation and maintenance of ventilatory support; (Detail)	4.5.e.1.	initiation and maintenance of ventilatory support; (Detail)
IV.B.1.b).(2).(c).(ii).(b)	respiratory care techniques; and, (Detail)	4.5.e.2.	respiratory care techniques; and, (Detail)

Roman Numeral Requirement Number	Requirement Language	Reformatted Requirement Number	Requirement Language
IV.B.1.b).(2).(c).(ii).(c)	liberation from mechanical ventilatory support, including terminal extubation. (Detail)	4.5.e.3.	liberation rom mechanical ventilatory support, including terminal extubation. (Detail)
IV.B.1.b).(2).(c).(iii)	use of reservoir masks and continuous positive airway pressure masks for delivery of supplemental oxygen, humidifiers, nebulizers, and incentive spirometry; (Core)	4.5.f.	Fellows must demonstrate competence in procedural and technical skills, including use of reservoir masks and continuous positive airway pressure masks for delivery of supplemental oxygen, humidifiers, nebulizers, and incentive spirometry. (Core)
IV.B.1.b).(2).(c).(iv)	flexible fiber-optic bronchoscopy procedures, including those in which endobronchial and transbronchial biopsies, and transbronchial needle aspiration are performed; (Core)	4.5.g.	Fellows must demonstrate competence in procedural and technical skills, including flexible fiber-optic bronchoscopy procedures, including those in which endobronchial and transbronchial biopsies, and transbronchial needle aspiration are performed. (Core)
IV.B.1.b).(2).(c).(v)	pulmonary function tests to assess respiratory mechanics and gas exchange, including spirometry, flow volume studies, lung volumes, diffusing capacity, arterial blood gas analysis, exercise studies, and interpretation of the results of bronchoprovocation testing using methacholine or histamine; (Core)	4.5.h.	Fellows must demonstrate competence in procedural and technical skills, including pulmonary function tests to assess respiratory mechanics and gas exchange, including spirometry, flow volume studies, lung volumes, diffusing capacity, arterial blood gas analysis, exercise studies, and interpretation of the results of bronchoprovocation testing using methacholine or histamine. (Core)
IV.B.1.b).(2).(c).(vi)	diagnostic and therapeutic procedures, including paracentesis, lumbar puncture, thoracentesis, endotracheal intubation, and related procedures; (Core)	4.5.i.	Fellows must demonstrate competence in procedural and technical skills, including diagnostic and therapeutic procedures, including paracentesis, lumbar puncture, thoracentesis, endotracheal intubation, and related procedures. (Core)
IV.B.1.b).(2).(c).(vii)	placement and management of chest tubes and pleural drainage systems; (Core)	4.5.j.	Fellows must demonstrate competence in procedural and technical skills, including placement and management of chest tubes and pleural drainage systems. (Core)
IV.B.1.b).(2).(c).(viii)	operation of bedside hemodynamic monitoring systems; (Core)	4.5.k.	Fellows must demonstrate competence in procedural and technical skills, including operation of bedside hemodynamic monitoring systems. (Core)
IV.B.1.b).(2).(c).(ix)	emergency cardioversion; (Core)	4.5.l.	Fellows must demonstrate competence in procedural and technical skills, including emergency cardioversion. (Core)
IV.B.1.b).(2).(c).(x)	interpretation of intracranial pressure monitoring; (Core)	4.5.m.	Fellows must demonstrate competence in procedural and technical skills, including interpretation of intracranial pressure monitoring. (Core)
IV.B.1.b).(2).(c).(xi)	nutritional support; (Core)	4.5.n.	Fellows must demonstrate competence in procedural and technical skills, including nutritional support. (Core)
IV.B.1.b).(2).(c).(xii)	those skills essential to critical care ultrasound, including image acquisition, image interpretation at the point of care, and use of ultrasound to place intravascular and intracavitary tubes and catheters; (Core)	4.5.o.	Fellows must demonstrate competence in procedural and technical skills, including those skills essential to critical care ultrasound, including image acquisition, image interpretation at the point of care, and use of ultrasound to place intravascular and intracavitary tubes and catheters. (Core)
IV.B.1.b).(2).(c).(xiii)	use of transcutaneous pacemakers; and, (Core)	4.5.p.	Fellows must demonstrate competence in procedural and technical skills, including use of transcutaneous pacemakers. (Core)
IV.B.1.b).(2).(c).(xiv)	use of paralytic agents and sedative and analgesic drugs in the critical care unit. (Core)	4.5.q.	Fellows must demonstrate competence in procedural and technical skills, including use of paralytic agents and sedative and analgesic drugs in the critical care unit. (Core)
IV.B.1.c)	**Medical Knowledge** **Fellows must demonstrate knowledge of established and evolving biomedical, clinical, epidemiological, and social-behavioral sciences, including scientific inquiry, as well as the application of this knowledge to patient care. (Core)**	4.6.	**ACGME Competencies – Medical Knowledge** **Fellows must demonstrate knowledge of established and evolving biomedical, clinical, epidemiological, and social-behavioral sciences, including scientific inquiry, as well as the application of this knowledge to patient care. (Core)**

IV.B.1.c).(1)	Fellows must demonstrate knowledge of the indications, contradictions, and complications of placement of arterial, central venous, and pulmonary artery balloon flotation catheters. (Core)	4.6.a.	Fellows must demonstrate knowledge of the indications, contradictions, and complications of placement of arterial, central venous, and pulmonary artery balloon flotation catheters. (Core)
IV.B.1.c).(2)	Fellows must demonstrate knowledge in the indications, contraindications, and complications of placement of percutaneous tracheostomies. (Core)	4.6.b.	Fellows must demonstrate knowledge in the indications, contraindications, and complications of placement of percutaneous tracheostomies. (Core)
IV.B.1.c).(3)	Fellows must demonstrate knowledge of:	[None]	
IV.B.1.c).(3).(a)	imaging techniques commonly employed in the evaluation of patients with pulmonary disease or critical illness, including the technical and procedural use of ultrasound and interpretation of ultrasound images at the point of care for medical decision-making; (Core)	4.6.c.	Fellows must demonstrate knowledge of imaging techniques commonly employed in the evaluation of patients with pulmonary disease or critical illness, including the technical and procedural use of ultrasound and interpretation of ultrasound images at the point of care for medical decision-making. (Core)
IV.B.1.c).(3).(b)	monitoring and supervising special services, including: (Core)	4.6.d.	Fellows must demonstrate knowledge of monitoring and supervising special services, including: (Core)
IV.B.1.c).(3).(b).(i)	respiratory care units; (Detail)	4.6.d.1.	respiratory care units; (Detail)
IV.B.1.c).(3).(b).(ii)	pulmonary function laboratories, including quality control, quality assurance, and proficiency standards; (Detail)	4.6.d.2.	pulmonary function laboratories, including quality control, quality assurance, and proficiency standards; (Detail)
IV.B.1.c).(3).(b).(iii)	respiratory care techniques and services. (Detail)	4.6.d.3.	respiratory care techniques and services. (Detail)
IV.B.1.c).(3).(c)	the basic sciences, with particular emphasis on: (Core)	4.6.e.	Fellows must demonstrate knowledge of the basic sciences, with particular emphasis on: (Core)
IV.B.1.c).(3).(c).(i)	genetics and molecular biology as they relate to pulmonary diseases; (Detail)	4.6.e.1.	genetics and molecular biology as they relate to pulmonary diseases; (Detail)
IV.B.1.c).(3).(c).(ii)	developmental biology; and, (Detail)	4.6.e.2.	developmental biology; and, (Detail)
IV.B.1.c).(3).(c).(iii)	pulmonary physiology and pathophysiology in systemic diseases. (Detail)	4.6.e.3.	pulmonary physiology and pathophysiology in systemic diseases. (Detail)
IV.B.1.c).(3).(d)	biochemistry and physiology, including cell and molecular biology and immunology, as they relate to pulmonary disease; (Detail)	4.6.f.	Fellows must demonstrate knowledge of biochemistry and physiology, including cell and molecular biology and immunology, as they relate to pulmonary disease. (Detail)
IV.B.1.c).(3).(e)	indications, complications, and outcomes of lung transplantation; (Core)	4.6.g.	Fellows must demonstrate knowledge of indications, complications, and outcomes of lung transplantation. (Core)
IV.B.1.c).(3).(f)	pericardiocentesis; (Core)	4.6.h.	Fellows must demonstrate knowledge of pericardiocentesis. (Core)
IV.B.1.c).(3).(g)	percutaneous needle biopsies; (Core)	4.6.i.	Fellows must demonstrate knowledge of percutaneous needle biopsies. (Core)
IV.B.1.c).(3).(h)	renal replacement therapy; (Core)	4.6.j.	Fellows must demonstrate knowledge of renal replacement therapy. (Core)
IV.B.1.c).(3).(i)	pharmacokinetics, pharmacodynamics, and drug metabolism and excretion in critical illness; (Core)	4.6.k.	Fellows must demonstrate knowledge of pharmacokinetics, pharmacodynamics, and drug metabolism and excretion in critical illness. (Core)
IV.B.1.c).(3).(j)	principles and techniques of administration and management of a MICU; (Core)	4.6.l.	Fellows must demonstrate knowledge of principles and techniques of administration and management of a MICU. (Core)
IV.B.1.c).(3).(k)	ethical, economic, and legal aspects of critical illness; (Core)	4.6.m.	Fellows must demonstrate knowledge of ethical, economic, and legal aspects of critical illness. (Core)
IV.B.1.c).(3).(l)	recognition and management of the critically ill from disasters, including those caused by chemical and biological agents; and, (Core)	4.6.n.	Fellows must demonstrate knowledge of recognition and management of the critically ill from disasters, including those caused by chemical and biological agents. (Core)
IV.B.1.c).(3).(m)	the psychosocial and emotional effects of critical illness on patients and patients' families. (Core)	4.6.o.	Fellows must demonstrate knowledge of the psychosocial and emotional effects of critical illness on patients and patients' families. (Core)

Roman Numeral Requirement Number	Requirement Language	Reformatted Requirement Number	Requirement Language
IV.B.1.d)	**Practice-based Learning and Improvement** Fellows must demonstrate the ability to investigate and evaluate their care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning. (Core)	4.7.	**ACGME Competencies – Practice-Based Learning and Improvement** Fellows must demonstrate the ability to investigate and evaluate their care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning. (Core)
IV.B.1.e)	**Interpersonal and Communication Skills** Fellows must demonstrate interpersonal and communication skills that result in the effective exchange of information and collaboration with patients, their families, and health professionals. (Core)	4.8.	**ACGME Competencies – Interpersonal and Communication Skills** Fellows must demonstrate interpersonal and communication skills that result in the effective exchange of information and collaboration with patients, their families, and health professionals. (Core)
IV.B.1.f)	**Systems-based Practice** Fellows must demonstrate an awareness of and responsiveness to the larger context and system of health care, including the structural and social determinants of health, as well as the ability to call effectively on other resources to provide optimal health care. (Core)	4.9.	**ACGME Competencies – Systems-Based Practice** Fellows must demonstrate an awareness of and responsiveness to the larger context and system of health care, including the structural and social determinants of health, as well as the ability to call effectively on other resources to provide optimal health care. (Core)
IV.C.	**Curriculum Organization and Fellow Experiences**	4.10. - 4.12.	**4.10. Curriculum Organization and Fellow Experiences – Curriculum Structure** The curriculum must be structured to optimize fellow educational experiences, the length of the experiences, and the supervisory continuity. These educational experiences include an appropriate blend of supervised patient care responsibilities, clinical teaching, and didactic educational events. (Core) **4.11. Curriculum Organization and Fellow Experiences – Didactic and Clinical Experiences** Fellows must be provided with protected time to participate in core didactic activities. (Core) **4.12. Curriculum Organization and Fellow Experiences – Pain Management** The program must provide instruction and experience in pain management if applicable for the subspecialty, including recognition of the signs of substance use disorder. (Core)

Roman Numeral Requirement Number	Requirement Language	Reformatted Requirement Number	Requirement Language
IV.C.1.	**The curriculum must be structured to optimize fellow educational experiences, the length of the experiences, and the supervisory continuity. These educational experiences include an appropriate blend of supervised patient care responsibilities, clinical teaching, and didactic educational events. (Core)**	4.10.	**Curriculum Organization and Fellow Experiences – Curriculum Structure The curriculum must be structured to optimize fellow educational experiences, the length of the experiences, and the supervisory continuity. These educational experiences include an appropriate blend of supervised patient care responsibilities, clinical teaching, and didactic educational events. (Core)**
IV.C.1.a)	Rotations must be of sufficient length to provide longitudinal relationships with faculty members to allow for meaningful assessment and feedback. (Core)	4.10.a.	Rotations must be of sufficient length to provide longitudinal relationships with faculty members to allow for meaningful assessment and feedback. (Core)
IV.C.1.b)	Rotations must be structured to allow fellows to function as part of an effective interprofessional team that works together towards the shared goals of patient safety and quality improvement. (Core)	4.10.b.	Rotations must be structured to allow fellows to function as part of an effective interprofessional team that works together towards the shared goals of patient safety and quality improvement. (Core)
IV.C.1.c)	Schedules must be structured to minimize conflicting inpatient and outpatient responsibilities. (Core)	4.10.c.	Schedules must be structured to minimize conflicting inpatient and outpatient responsibilities. (Core)
IV.C.2.	**The program must provide instruction and experience in pain management if applicable for the subspecialty, including recognition of the signs of substance use disorder. (Core)**	4.12.	**Curriculum Organization and Fellow Experiences – Pain Management The program must provide instruction and experience in pain management if applicable for the subspecialty, including recognition of the signs of substance use disorder. (Core)**
IV.C.3.	The program must provide opportunities to manage adult patients with a wide variety of serious illnesses and injuries requiring treatment in a critical care setting. (Detail)	4.11.a.	The program must provide opportunities to manage adult patients with a wide variety of serious illnesses and injuries requiring treatment in a critical care setting. (Detail)
IV.C.4.	Fellows must have at least 18 months of clinical experience, including: (Core)	[None]	
IV.C.4.a)	at least nine months of patient care responsibility for inpatients and outpatients with a wide variety of pulmonary diseases, with an educational emphasis on pulmonary physiology and its correlation with clinical disorders; (Core)	4.11.b.	Fellows must have at least 18 months of clinical experience, including at least nine months of patient care responsibility for inpatients and outpatients with a wide variety of pulmonary diseases, with an educational emphasis on pulmonary physiology and its correlation with clinical disorders. (Core)
IV.C.4.b)	at least nine months in critical care medicine, of which at least six months must be devoted to the care of critically ill medical patients (MICU/CICU or equivalent); (Core)	4.11.c.	Fellows must have at least 18 months of clinical experience, including at least nine months in critical care medicine, of which at least six months must be devoted to the care of critically ill medical patients (MICU/CICU or equivalent). (Core)
IV.C.4.c)	at least three months devoted to the care of critically ill non-medical patients (SICU, Burn Unit, Transplant Unit, Neurointensive Care, or equivalent); and, (Core)	4.11.d.	Fellows must have at least 18 months of clinical experience, including at least three months devoted to the care of critically ill non-medical patients (SICU, Burn Unit, Transplant Unit, Neurointensive Care, or equivalent). (Core)
IV.C.4.c).(1)	This experience should consist of at least one month of direct patient care activity, with the remainder being fulfilled by either consultative activities or in direct care of such patients. (Detail)	4.11.d.1.	This experience should consist of at least one month of direct patient care activity, with the remainder being fulfilled by either consultative activities or in direct care of such patients. (Detail)
IV.C.4.d)	not more than 15 months of required intensive care unit experiences in the three years of the educational program. (Detail)	4.11.e.	Fellows must have at least 18 months of clinical experience, including not more than 15 months of required intensive care unit experiences in the three years of the educational program. (Detail)
IV.C.5.	Fellow experiences must include:	[None]	
IV.C.5.a)	continuing responsibility for both acutely and chronically ill pulmonary patients, in order to learn both the natural history of pulmonary disease and the effectiveness of therapeutic programs; (Core)	4.11.f.	Fellows experiences must include continuing responsibility for both acutely and chronically ill pulmonary patients, in order to learn both the natural history of pulmonary disease and the effectiveness of therapeutic programs. (Core)
