

Combined Diagnostic Radiology-Nuclear Medicine Curricular Requirements

This document enumerates the **minimum** curricular requirements for combined ACGME-accredited programs in diagnostic radiology and nuclear medicine, as approved by the American Board of Nuclear Medicine (ABNM), American Board of Radiology (ABR), and American Osteopathic Board of Radiology (AOBR). This information was collated on June 2, 2025 and will be updated as needed.

1. Total duration: 60 months after completion of a prerequisite year as outlined in the Program Requirements for Graduate Medical Education in Diagnostic Radiology
2. Diagnostic radiology curriculum:
 - a. 48 months
 - b. Including four months of nuclear radiology
 - c. Including three months of mammography/breast imaging
3. Nuclear medicine curriculum:
 - a. 12 months in addition to the four months of nuclear radiology specified above
 - b. Residents must meet the training and experience required by the Nuclear Regulatory Commission (NRC) in basic radionuclide handling techniques and radiation safety applicable to the medical use of unsealed byproduct material, as described in 10 CFR 35.300 (describe in block diagram)
 - c. Residents must meet Case Log and curricular requirements outlined in the Program Requirements for Graduate Medical Education in Nuclear Medicine
